

# Jenny Arran

www.jennyarran.co.uk instagram: jennyarran

Jenny's work explores an embodied experience of landscape. She describes it as a conversation, between the self and the landscape. She works from visual memory and poetic fragments, translating an experience of colour, matter and light. Her drawings, paintings and poems merge inner and outer landscapes and the process and experiences of being in the landscape resonate in the work.

b.1976, Coventry.
